

Grupo VNieto **Green Plastics** **LLC**

**PLASTIC PRODUCTS AND
INTEGRAL SERVICES**

ABOUT US

Grupo VNieto **Green Plastics** **LLC**

We are a Mexican company that has positioned itself as a benchmark in the manufacture of plastic products with over 20 years of experience in the market. Its ability to adapt to the needs of its customers, its commitment to quality, and its focus on innovation make it an excellent option for those seeking efficient and customized plastic solutions.

CORPORATE CULTURE

MISSION

We are a comprehensive manufacturing company specializing in plastic products and services. We are committed to meeting our customers' standards through high-quality products and timely delivery. Our agile and effective management ensures that we operate profitably.

VISION

To be the world's go-to manufacturer for comprehensive plastic solutions, delivering high-quality products that meet or exceed international standards

VALUES

Integrity

We conduct our business with the highest ethical standards. We recognize and reward employee performance based on merit, while maintaining a supportive work environment.

Tolerance

We embrace diversity and respect all individuals, regardless of their ethnic, religious, political, or social beliefs.

Equity

We provide equal opportunities and fair treatment to all employees.

Social Responsibility

We are committed to our employees and to making a positive impact on our community.

OUR SERVICES

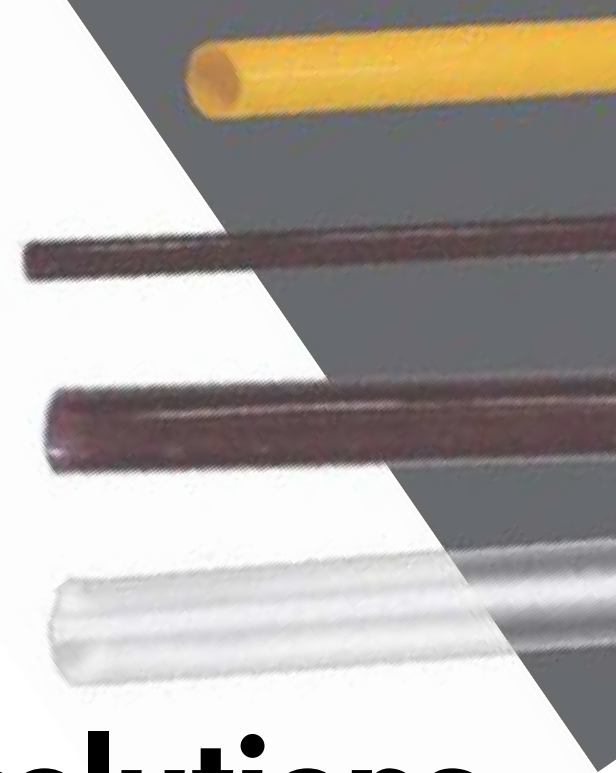

As specialized manufacturers, we produce high-quality plastic products using biodegradable resins and advanced techniques such as extrusion, injection, and blow molding. Our commitment to sustainability is evident in every product we create.

PLASTIC EXTRUSION

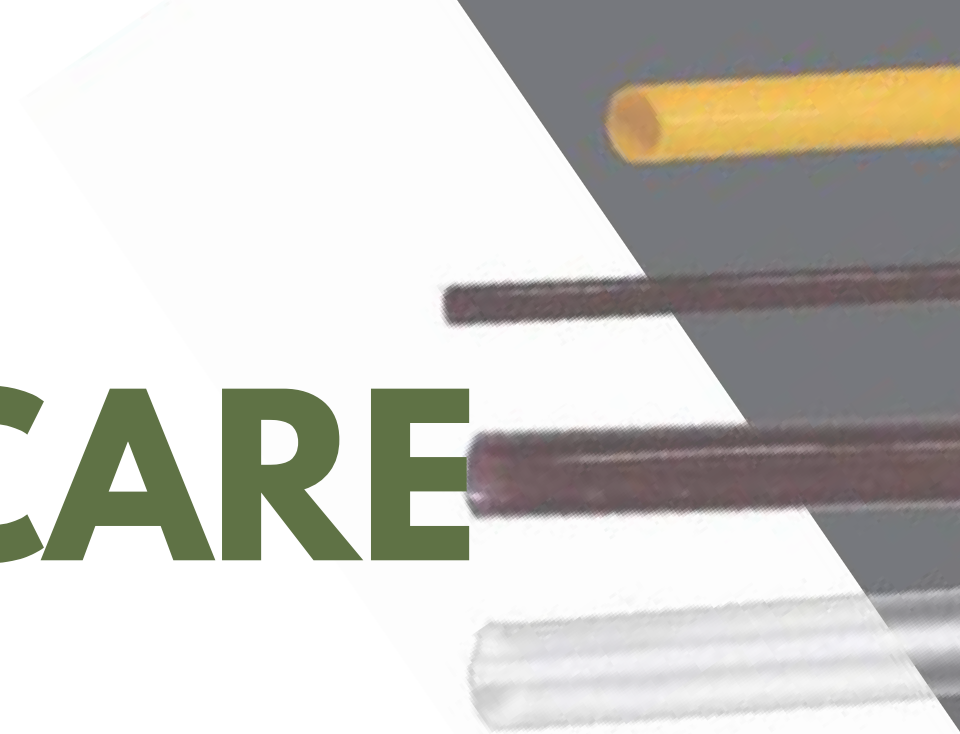

**Leading the way in sustainable solutions,
we produce high-performance
biodegradable disposables tailored to
your needs. Our customized straws,
toothpicks, and stirrers are made from
premium biodegradable materials that
meet the rigorous standards of the food
industry.**

INNOVATION AND **ENVIRONMENTAL CARE**

**We are staunch advocates for a
more sustainable future and are
dedicated to developing
environmentally friendly products
that meet the highest quality
standards**

BIODEGRADABLE ADDITIVES

By incorporating innovative additives, we transform conventional plastics into biodegradable materials that, when exposed to natural environmental conditions, are broken down by microorganisms without leaving any harmful residues in the ecosystem

CERTIFICATIONS

- **Certified to ASTM 6954 by the SP Technical Research Institute of Sweden.**
- **The additive is FDA-compliant for food contact applications.**
- **It contains no heavy metals or toxic residues and is formulated using 100% bio-based technology.**

PJLA
Testing

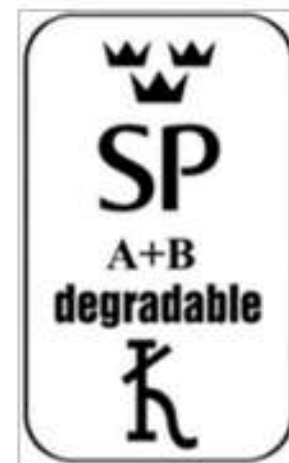

Accreditation No.: 99219

P-life Tecnología
100% Base Biológica

ASTM D6866-18

BIODEGRADABLE FIBERS

We utilize bio-based bioplastic compounds, formulated with agave fiber cellulose, specifically engineered for extrusion processes to produce straws and plastic tapes.

CERTIFICATIONS

- **USDA Biobased Certified:** This certification from the United States Department of Agriculture verifies that the agave fiber used in our product originates from renewable plant sources.
- **FDA Food-Grade Approval:** This product has been approved by the Food and Drug Administration for direct food contact. This ensures that it meets rigorous safety standards and is suitable for use with food items.

BLOW MOLDING PROCESS

Through innovation and cutting-edge technology, we design and manufacture food-grade packaging and bottles that meet the highest quality standards.

INJECTION MOLDING PROCESS

We offer a full-cycle service, from conceptual design to finished product, specializing in injection molded parts

sticks**

QUALITY POLICY

Our primary commitment is to deliver products that not only meet but exceed the most demanding quality standards, both nationally and internationally. Likewise, we strive to meet the specific expectations of each customer in terms of safety, product quality, and timely delivery

CERTIFICATION PROCESS

**We are in the process of
developing a formal, contracted
consulting and training service for
ISO 22000:2018 implementation.**

Grupo VNieto Green Plastics LLC

"The secret of joy in work is contained in one word, excellence. To know how to do something well is to enjoy it".
